

RAHUL PARMAR

Full Stack Developer

☎ +91-7405000080 📍 Ahmedabad, Gujarat ✉ rahulparmar0u@gmail.com 🌐 linkedin.com/in/rahul-parmar

Summary

Full Stack Developer with knowledge of MERN stack. Skilled in building web applications, RESTful APIs, and responsive user interfaces. Eager to learn and contribute to real-world projects.

Skills

Programming: JavaScript, TypeScript, Python

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Database: MongoDB, Firebase

Tools & Platforms: Git, GitHub, Postman, VS Code, Vercel, Render, Netlify

Experience

Frontend Developer Intern

Dec 2025

Cognifyz Technologies

Tools: React.js, Tailwind CSS

- Built responsive user interfaces using React.js and Tailwind CSS, improving usability across 3+ device types.
- Integrated RESTful APIs to handle dynamic data across 4+ components.
- Improved application performance by reducing unnecessary re-renders and optimizing component structure.
- Collaborated with a team of 3 developers to develop scalable frontend features.

Projects

Stylora – Salon Appointment Booking System

GitHub

- Built a full-stack salon booking application with secure JWT-based authentication.
- Established role-based access control for users and admin operations.
- Integrated Razorpay and Stripe for online payment processing.
- Managed appointment booking with time slot selection and real-time availability updates.
- Allowed appointment cancellation and admin rejection with automatic slot re-availability.
- Developed backend services following RESTful API design principles.

Ferrano – Full Stack E-Commerce Platform

GitHub

- Created a full-stack e-commerce application with secure JWT-based authentication.
- Implemented product listing, cart management, and checkout functionality.
- Supported multiple payment options including Razorpay, Stripe, and Cash on Delivery.
- Allowed users to track order status in real-time after purchase.
- Built admin panel to manage products, users, and update order status.

BLODBLOG – AI-Powered Blog Platform

GitHub

- Created a blog platform with user authentication and profile management.
- Added features for creating, editing, and commenting on blog posts.
- Used AI to generate blog content based on user inputs.
- Built a responsive UI for better user experience across devices.

Education

LDRP Institute of Technology and Research, Gandhinagar

2022 – 2026

Bachelor of Engineering in Computer Engineering

CGPA: 7.00

Vedant International School, Ahmedabad

2018 – 2022

Higher Secondary Education (Science Stream)

Certifications

- NPTEL (2025): Python for Data Science
